What are the People Looking for?
J. A. FROST'S
WHITMAN ST.,
NORWAY, MAINE.

CASCORIAN'S PRIDE.

Races, Prize Drawing of Horses and Cows, Notes, Incidents of the Fair.

FOURTH ANNUAL.

The sun shone a little, Thursday morning. It had been under a cloud for many days but it actually came out and lifted the mist and it was joyous.

Some over a thousand tickets of admission were sold. Teams were admitted free and there were many hundreds on the grounds.

There were several showers during the forenoon but the weather was an improvement over the two previous days. Had the weather been good the attendance was expected to get out of the fair this year. There is a debt of about \$275 on the Association but with good weather they can easily pay this, next year. They have one of the finest tracks in this section of the State.

Location of Park.
At the foot of Pleasant Pond and between that and Parker Pond is Casco Village. It is 1 1/2 miles from the depot, the nearest railroad station, 12 miles from Mechanic Falls and 28 miles from Portland. The village proper is the foot of the Pleasant Pond.

The grounds of the Little Piggy Park Association are not here but about two miles further up at the head of Parker Pond. There are three farms and houses and an excellent chance to ride horses in the woods.

Those living here are George Nutting, Henry Colby and Wm. F. Colby. The park is located at the Four Corners of the road with beautiful picturesque landscape surroundings. Trees, upland and water, two-thirds fenced in the park was mean.

A very good race of a 15 to 1 dollar and step within the enclosure where everything was on the move.

The pride and joy of the Cascorians! A lovely spot.

Prize Drawing of Horses.
Rain or no rain the races were on. And it rained. Umbrellas would have been better than the scores of the race and scores and not umbrellas. The boys sold some. They worked well and their names were George Colby, Roy Green, Willie Doughty and Eddie Black.

The 2-30 class 14 horses were named and four started. It was trotted in straight heats and the summary will tell the story.

There were seven starters in the 2-50 class. It was a good race but Regent driven by Chas. Jenkins, Auburn, won the first heat with much speed and won.

The judges were C. K. Richards, Fulmouth, starter, with J. B. Robinson and Geo. H. Jones, Oxford, Clerk, G. E. Mayberry, Clerk, G. W. Stone, Oxford, had charge of the numbers.

Black Middle, 15 to 1, 2-50.
Regent, Chas. Jenkins, 15 to 1, 2-50.
Auburn, G. E. Mayberry, 15 to 1, 2-50.
Fulmouth, J. B. Robinson, 15 to 1, 2-50.
Oxford, G. H. Jones, 15 to 1, 2-50.
Stone, G. W. Stone, 15 to 1, 2-50.
Time—2:25.8.

Prize Drawing of Horses.
David Wright came from Naples and drove a load of double their weight 157 feet.

Charles Batcherfield is a Naples man and his horse weighed 168 lbs. and they drew the load—double their weight—215 feet and took first money.

His horse weighed 168 lbs. and they drew the load—double their weight—215 feet and took first money. His horse weighed 168 lbs. and they drew the load—double their weight—215 feet and took first money.

His horse weighed 168 lbs. and they drew the load—double their weight—215 feet and took first money. His horse weighed 168 lbs. and they drew the load—double their weight—215 feet and took first money.

His horse weighed 168 lbs. and they drew the load—double their weight—215 feet and took first money. His horse weighed 168 lbs. and they drew the load—double their weight—215 feet and took first money.

His horse weighed 168 lbs. and they drew the load—double their weight—215 feet and took first money. His horse weighed 168 lbs. and they drew the load—double their weight—215 feet and took first money.

here—in town—over 80 years. He is a Casco man. His father was the first settler of Norway, Joseph Stevens. He has a picture of the first farmhouse in Norway by his grandpa Stevens. It is needless to say he is interested in Dr. O. N. Badbury's "Norway in the Past." Mr. and Mrs. Stevens are both past 70 years of age and could be classed among pretty smart people for that age. Their son, Fred, lives in the Casco factory and owner of the Casco Creamery Co. He has a wife and two bright boys and a goodly amount of land.

Arrivals at Hotel Eastman—Frank Davis, Freeport, Tom Barnes and wife, Swazey, Swazey & Co., cracker dealers, Portland, W. H. Norton, Portland, F. W. Saborn, Portland, and Dr. Fuller, dentist, Harrison.

Andrew Perkins, Windham, broke a wheel from his carriage but owing to a large quantity of the divine afflatus from the jockey's paradise, he was able to run the race. There is a debt of about \$275 on the Association but with good weather they can easily pay this, next year. They have one of the finest tracks in this section of the State.

NORWAY AND VICINITY.
Byron Evans has been visiting a relative, Mrs. John Hayes at Bridgton. Mrs. L. D. Hobbs has had a pension granted of \$8 a month.

Mr. and Mrs. Augustus Noyes have gone to Boston to visit their three sons who live in the city.

They are taking account of stock in the shoe factory, preparatory to the new season of work, which will begin in about two weeks.

Mr. Charles Yeaton, who carries the Oxford Road mail, gives us two Alexander apples that weigh 14 ounces each. They are beauties.

One pumpkin seed dropped into the water of John P. Noyes' farm, Green Pond, was accidentally displayed at the fair. The vine was five pumpkins that weighed 200 pounds.

Friday afternoon, Guy Bennett and Marilee Carter were duck hunting on Little Pleasant Pond. They were rowing near the middle of the pond. The gun was accidentally discharged, blowing a big hole in the bottom of the boat.

They were soon struggling in the icy water. The boat tipped and they were to it and attempted to paddle ashore but the shore was so close they were soon on land. They had the only boat on the pond and it was nearly an hour before those on shore could get the boat out of the water. At last the boat was pulled out and the accident could be traced to a small hole in the bottom of the boat.

At last the boat was pulled out and the accident could be traced to a small hole in the bottom of the boat. At last the boat was pulled out and the accident could be traced to a small hole in the bottom of the boat.
